

**February 2009**

**HMM Responses to GDOT Review Comments on  
NH000-0575-01(028) Cobb County  
I-575 over Little River  
P.I. No. 713640**

1. Review comments on the preliminary bridge layouts have been addressed, except for the following:
  - a. Title block: The title block used is consistent with the Costing Plans set title block prepared by Georgia Transportation Partners (GTP) as part of the Public Private Initiative (PPI).
  - b. The traffic data has been added to the preliminary bridge layout. However, the roadway plans do not show the traffic data. An official traffic study has not been performed for this project.
2. Review comments in the report text and study have been addressed.
3. The Bridge Deck Condition Survey and the Bridge Condition Survey's will be done during the initial stages of the design-build phase of the project.
4. Portions of the existing bridge plans as well as the HEC-II runs have been removed from the study.
